Professional Summary

Backend Developer specializing in PHP & Laravel, focused on building scalable SaaS platforms and RESTful APIs. Experienced in MVC architecture, real-time systems, and database optimization. Active content creator simplifying programming concepts for students. Passionate about clean code, software architecture, and AI-assisted development.

Technical Skills

Backend:	PHP, Laravel, REST APIs, WebSockets, Authentication, Authorization
Database:	MySQL, Eloquent ORM, Database Design
Architecture:	MVC, OOP, SOLID, Design Patterns, Clean Code
Problem Solving:	C++ (Data Structures & Algorithms fundamentals)
Tools:	Git, GitHub, VS Code
Languages & Technologies:	HTML5, CSS3, C++, Python

Selected Projects

SmartMenu System (SaaS) - NTI Graduation Project

Technologies: Laravel, React, MySQL, WebSockets, Gemini API

- Developed a multi-tenant SaaS digital menu platform, designing database architecture and core business logic.
- Integrated real-time order tracking and personalized smart menu recommendations.

ShopZone Platform (Multi-Vendor E-Commerce) - MEC Academy Graduation Project

Technologies: Laravel, Livewire, Tailwind CSS, MySQL, Spatie Permissions

- Built a multi-vendor marketplace featuring interactive dashboards and role-based access control (RBAC).
- Integrated secure payment gateway, billing processing, and background email queues.

Laravel E-Commerce Platform - GDG On Campus - Zagazig University Project

Technologies: Laravel, MySQL, Blade, Authentication, Authorization

- Developed a book e-commerce platform featuring secure authentication and authorization systems.
- Optimized database queries to improve performance, page load times, and overall responsiveness.

Single-Page Portfolio Landing Page

Technologies: HTML5, CSS3, JavaScript, Responsive Design

- Designed a responsive single-page portfolio for a freelance client.
- Optimized load speeds, section structure, and cross-device interface compatibility.

Experience & Activities

Back-End Developer & Academy Member | GDG On Campus - Zagazig University

- Developed collaborative web apps and resolved backend bugs as part of the Back-End track.
- Awarded "Best Member" in the academy for dedication and code quality.

RAID Architectures Research & Presentation | Zagazig University

- Researched and presented RAID storage architectures, focusing on performance and fault tolerance.
- Collaborated with the Interactive Cores team, securing an A+ grade.

Terminal Commands Presentation & Simulation | Zagazig University

- Delivered practical sessions and simulations on Linux CLI and network administration.
- Designed hands-on CLI labs and training materials.

Content Creator | "ElHandaza" YouTube Channel

- Managed "ElHandaza" educational channel, explaining C++, Git, and CS fundamentals.
- Handled scripting, video editing, and SEO to maximize audience reach.

itida + gigs Digital Freelancing Program | eYouth & ITIDA

- Acquired freelancing, project management, and client communication skills for global tech markets.
- Set up freelance profiles and completed paid software development projects.

Education

B.Sc. Student in Mathematics and Computer Science

Faculty of Science, Zagazig University, Egypt | Graduation: June 2027

Certifications & Professional Development

- Back-End Development Diploma via MEC Academy
- SOLID Principles Course via Udemy
- Web Applications (PHP/MySQL) & Database Fundamentals Courses via Mahara-Tech (ITI)
- McKinsey Forward Advanced Program for Leadership, Adaptability & Problem-Solving
- Object-Oriented PHP (OOP) & Version Control (Git & GitHub) Courses via M3aarf & Msaaqat
- C++ Programming, Algorithms, Problem-Solving & OOP Path via ProgrammingAdvices
- "1 Million Prompters" Initiative Certificate via Dubai Future Foundation

Languages

Arabic: Native

English: Intermediate (Written & Spoken)

SESSION 5 ASSIGNMENT

CV Writing and Interviewing Skills

Tailor Your CV for One Job Opportunity

Student Name	Amr Reda Mohamed	Group Code	QAL5_SWD2_S1
--------------	------------------	------------	--------------

Your Task

Update your current CV for one real job opportunity.

Opportunity / Role Name

Senior PHP Developer (Short term) at Intetics - Remote

One Main Change You Made

Updated the **"Professional Summary"** and **"Experience"** sections to include key terms from the job description such as **"Agile environments"**, **"cross-functional collaboration"**, and **"code reviews"**. Also, highlighted my experience with React and scalable architectures in the *SmartMenu System* project to match the employer's requirements perfectly.

Job Advert Text (For Reference during review)

Intetics Inc. is looking for a Senior PHP Developer.
Responsibilities: Design, develop, and test complex web applications using PHP and related technologies. Provide technical guidance and support to team members, including code reviews and knowledge sharing. Collaborate with cross-functional teams to define, design, and ship new features. Ensure the quality, performance, and scalability of our solutions through automated testing and continuous integration. Participate in the full software development life cycle.
Requirements: 5 years of experience developing web applications using PHP. Strong proficiency in PHP, MySQL, HTML5, CSS3, and JavaScript. Experience with Laravel or a similar PHP framework. Knowledge of front-end frameworks such as React, Angular, or Vue.js. Familiarity with Git and Agile development methodologies. Excellent written and verbal communication skills in English.
