

SESSION 3 ASSIGNMENT

Pricing, Payment, Budgeting, and Proposals

Create a Technical & Financial Proposal

Student Name		Group Code	
--------------	--	------------	--

Your Task

Choose one freelance project related to your specialization and prepare a short technical and financial proposal for it using the pricing and proposal principles from the session.

Complete the task in 3 steps:

1. Choose one suitable freelance project and include its link or a short copy of the client brief.
2. Write the technical part: show that you understand the client need, then define the scope, main deliverables, and timeline.
3. Write the financial part: set a realistic price, state the pricing method, and add clear payment terms.

Project Link / Brief	
Client Need	
Scope & Deliverables	
Timeline	
Price & Pricing Method	
Payment Terms	

What to submit: Submit the completed technical and financial proposal as a Word or PDF file.
