

SESSION 4 ASSIGNMENT

Negotiation Skills

Respond to a Client Negotiation Scenario

Student Name: Amr Reda Mohamed

Group Code: QAL5_SWD2_S1

Your Task

Practice a realistic freelance negotiation by writing one professional response that protects your value while aiming for a fair agreement with the client.

Complete the task in 3 steps:

1. Read this client message:

"Your price is higher than my budget. Can you reduce it by 30% and include two extra revisions without changing the deadline?"

2. Choose one negotiation strategy from the session: Collaborating, Compromising, Competing, Accommodating, or Avoiding.
3. Write a professional reply of about 80-120 words. You may adjust price, scope, deadline, or revisions, but keep the response respectful, clear, and realistic.

Selected Strategy	Collaborating (Win-Win)
What I Will Negotiate	Price & Scope (with optional extra revisions on the original package)
My Professional Reply	"Hi [Client Name], thank you for sharing your thoughts and budget considerations. I truly value the opportunity to collaborate on this project. While I cannot reduce the price by 30% for the full project scope and add extra revisions without compromising the code quality and delivery standards, I would love to find a solution that works perfectly for both of us. We can either adjust the scope to focus on the essential core features first to fit your exact budget, or keep the full scope at the original rate, and I will gladly include the two extra revisions for free. Which option would you prefer?" ✓ Word count: 103 words (Target: 80-120 words)
Final Offer / Agreement	I propose either reducing the project scope to deliver the core MVP features within your budget, or maintaining the original price with the two extra revisions included at no extra cost.

What to submit: Submit this completed assignment page as a Word or PDF file.
