Freelancing Websites : How it work

Client Posts Jobs:

The client posts job listings or projects on the freelance platform, specifying the **requirements, scope of work, and budget**. Freelancers interested in the job can review the details and submit proposals or bids to be considered for the project.

Freelancer Offers Specific Services:

Freelancers offer specific services or "gigs" on the platform. They create detailed listings describing the services they provide, along with the pricing and turnaround time. Clients can browse through these listings and directly hire the freelancer for the desired service.

Activity : Create Your Freelance Profile

Activity - 1: Create Your Freelance Profile

Prompt for creating freelance profile

Act as a freelance profile coach. Help me create a professional profile for the freelance platform I choose.

Platform: [Khamsat / Mostagl / Upwork / Freelancer / LinkedIn / etc.]

My specialization: [your DEPI track]

My skills: [your skills]

My experience/projects: [your experience]

My target clients: [who you want to work with]

Create: A professional profile title + A client-focused profile overview (150–250 words) + A skills list + Relevant keywords for search + A professional call-to-action + Platform-specific tips to optimize my profile and increase my chances of getting hired.

Keep the profile concise, professional, SEO-friendly, and tailored to the selected platform.
