

SESSION 1 ASSIGNMENT

Portfolio Building

Create Your Professional Portfolio

Student Name		Group Code	
--------------	--	------------	--

Your Task

Create a professional portfolio that clearly presents your specialization, skills, unique value, and strongest work samples to potential clients.

Complete the task in 3 steps:

1. Choose one portfolio format: PDF, personal website, or a portfolio platform.
2. Include your name and professional title, a short About section, your USP, key skills/services, and 2-4 strong work or project samples. Training and academic projects are acceptable if you do not have paid work yet.
3. Review your portfolio before submitting: keep it clear and relevant, use only your best work, remove confidential information, and make sure all links work.

Portfolio Format	
Portfolio Link	
Professional Title	
My USP	
Main Skills / Services	
Selected Work Samples	List the 2-4 projects or samples included in your portfolio.

What to submit: Upload your portfolio as a PDF, or submit a shareable portfolio link with view access.
