

SESSION 1 ASSIGNMENT

Portfolio Building

Create Your Professional Portfolio

Student Name	Amr Reda Mohamed	Group Code	QAL5_SWD2_S1
--------------	------------------	------------	--------------

Your Task

Create a professional portfolio that clearly presents your specialization, skills, unique value, and strongest work samples to potential clients.

Complete the task in 3 steps:

- Choose one portfolio format:** PDF, personal website, or a portfolio platform.
- Include your details:** name & professional title, short About section, USP, key skills/services, and 2-4 strong project samples.
- Review your portfolio before submitting:** keep it clear and relevant, use only best work, and ensure all links work.

Portfolio Format	Personal Website / Interactive Web Application (Modern Next.js & Tailwind CSS portfolio)
Portfolio Link	https://elhandaza-portfolio.vercel.app/
Professional Title	Backend Developer PHP & Laravel Specialist (Full-Stack Competence)
My USP	"I don't just write scripts; I engineer robust, scalable backend architectures and high-performance RESTful APIs prioritizing SOLID principles, clean code, and database optimization. Additionally, as an active tech educator behind EIHandaza , I combine deep technical precision with the ability to communicate and deliver clear, maintainable solutions."
